Culture at the Edges

Association Marcel Hicter 2014

This book celebrates 25 years of the European Diploma of Cultural Project Management run by the Association Marcel Hicter. It also coincides with 20 years of Oracle, with both anniversaries being marked in Delphi, Greece in June 2014, where this book is launched.

It combines chapters by people closely associated with the Diploma comprising the Pedagogic Team and Orientation Board as well as reflections from previous Diploma participants and Oracle members. Two exemplary projects are presented, as well as illustrations from throughout the Diploma's history and a full list of everyone who has completed it.

These historical reflections notwithstanding, it is intended to be as much a book about the present and future as the past, with the Diploma being used as a 'stepping off point' for further thought and creative developments.

The editorial team consisted of Jean Pierre Deru, Jonathan Goodacre, Milena Dragičević-Šešić, Robert Alagjozovski and Christopher Gordon.

This is a collective book.
